

Romania's Ministry of Energy has reopened its call to support projects of battery storage for renewable energy integration, seeking at least 240 MW and 480 MWh of resources. The original call, which referred to at least ...

OX2 secures EUR73million for 100 MW solar farm in Poland. Renewables developer OX2 has secured EUR73 million in financing from Germany's Nord/LB, a leading energy transition bank, for the development of a 100 MW solar farm in Poland.

Romanian state-owned company Hidroelectrica, the largest electricity producer in Romania, has launched a tender through which it wants to contract works for constructing an electricity storage ...

Monsson inaugurated a 24 MWh battery energy storage system in Romania. It is the first phase out of 216 MWh planned in total. The facility is connected to the company's Mireasa wind farm of 50 MW, while a 35 MW solar power plant is ...

Romania: R.Power begins construction on first solar project, expanding capacity to 100 MW by 2026; Romania: Nuclearelectrica allocates EUR19 million for Cernavoda NPP equipment maintenance contract; ... Aukera Project Company Delta will receive EUR9.9 million for a 300 MWh battery installation in Ialomita County, while Baboia Solar Plant will ...

Back in March 2021, Spanish PV equipment supplier Mondragon Assembly announced an agreement with Romania's Karpat Solar for a solar module production line with 100 MW annual capacity. Transylvania located Karpat Solar aimed to become the 1 st solar module manufacturer in the country with plans to expand it to a large-scale project in the future.

Centrica has plans to build a single 100 MW battery energy storage system in Ireland for delivery by 2022 to take advantage of capacity market and grid services opportunities currently under development. The project is said to be at the early stages of development, with planning documents submitted in three locations - Kilkenny, Athlone in ...

It took over the farm, with an installed capacity of 108 MW, more than three years ago from the German group STEAG. Hidroelectrica is considering a storage facility with a power of 36 MW and a ...

Scottish clean energy developer ILI Group said on Wednesday it has secured planning consent from the Scottish government for a 200-MW battery energy storage system (BESS) project, further expanding its energy storage portfolio in Scotland.

Fluor-led JV plans to expand Cernavoda nuclear plant, Romania; ACCIONA Energy to sell 626MW hydro portfolio in Spain to Endesa for EUR1bn; ... The 100 MW AES Energy Battery Energy Storage Project is a 100,000kW energy storage project located in ...

Monsson inaugurated a 24 MWh battery energy storage system in Romania. It is the first phase out of 216 MWh planned in total. The facility is connected to the company's Mireasa wind farm of 50 MW, while a 35 MW ...

The utility is also preparing to build a 300 MW photovoltaic plant with an electrolyzer of 100 MW. Renewable energy projects keep piling up in the country. In addition to reviving numerous dormant hydropower projects in Romania, Hidroelectrica is working on the diversification of its electricity sources.

Shikun and Binui Energy also invests big in wind power in Romania. Shikun and Binui Energy earlier secured a EUR 49 million loan for ?imleu Silvaniei. The location for the 101 MW photovoltaic endeavor is in the nearby Salaj county. It also got a transmission network connection approval for its proposed Gold-Wind wind farm of 376 MW near ...

The Monsson Group has recently inaugurated, in Constanta County, the largest electricity storage unit installed and produced in Romania, the battery system being made by Prime Batteries Technology. Storage capacity ...

In Romania, the company is building almost 100 MW including solar power. As for the rest of the region covered by Balkan Green Energy News, Nala Renewables has 817 MW in portfolio in Greece. None is operational yet, but 52 MW in peak capacity is under construction, compared to 54 MW in Kilis. ... Prequalification open for 170 MW of battery ...

Swiss firm AOT Energy has a 2 MW - 1 MWh system in Arad and Portuguese company EDPR Romania owns one of 1.2 MW and 1 MWh in Cobadin in Constan?a county. Earlier this month, Electrica and Renovatio Trading received EUR 3.4 million and EUR 3 million, respectively, for battery energy storage projects in Romania. The grants came via the EU's ...
