What were the keys behind Globeleq's fast rise in Mozambique's energy sector? Globeleq entered the Mozambican market in 2021 and, in just three years, our Mozambican business is on track to become our second-largest globally, behind Côte d'Ivoire. Achieving the financial close for the 450-MW Central Temane (CTT) gas project ...

In Mozambique, around 40% of people have access to electricity, through the grid or mini/off-grid systems. The government has promoted solar PV solutions in rural areas, reporting that 700 schools and 800 other public buildings now have electricity from solar. Free and paid data sets from across the energy system available for download. Policies ...

Mozambique: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
