

The Wizard Energy Storage Project, Peregrine's only project proposed for League City, is a 150 MW project to be sited in the Industrial zone of League City, south of Washington Street, east of Texas State Route 3, and west of Dickinson Avenue. ...

Not only is it a responsible choice for the environment, but it also saves you money on your energy bills and increases the value of your home. With advancements in technology and a team of experts at your service, switching to solar energy has never been easier. Our custom solar solutions are tailored to meet your unique energy needs and budget.

Peregrine analyzed 60,000 substations across the U.S. grid over a three-year period and found League City to be one of the weakest links on the grid with heavy congestion and the inability to move power efficiently. Texas has prioritized development of energy storage statewide to avoid future grid outages like the one that left League City ...

BOULDER, Colo., Feb. 7, 2023 /PRNewswire/ -- Peregrine Energy Solutions LLC ("Peregrine"), a recently established integrated and multi-technology clean energy platform with a focus on utility scale energy storage, today announced it has received a commitment from IMM Investment Global ("IMMG"), one of the leading multi-asset alternative investment firms in Asia, for funding ...

Before the permitting process takes place, League City will first develop an energy storage ordinance. An ordinance and proper permitting for energy storage systems that protect Texans while also allowing for reasonable projects to be built will ensure communities can safely benefit from the many advantages brought by these projects.
