

Technical Data Sheet Add water just four to six times per year allow trucks to last vs. every week With 90,100 and 125 amp-hour plates, Deserthog's batteries hold up to 132% more water than standard batteries, reducing watering intervals for a ...

Workhog batteries by EnerSys, are available in sizes to fit vehicles from small personnel carriers up to the largest 100,000-lb. lift truck. We've made a great battery even better. The latest generation of Workhog batteries, rated at 75, 90 ...

PowerSafe's SBS batteries are available in both 12-volt front-terminal and 2-volt OPzV and OPzS DIN container sizes, and an extensive range of Ampere-hour (Ah) capacities, providing flexibility to fit any setup. Whether you have a small remote site or a large-scale telecommunications infrastructure, industrial UPS, utility, or data center ...

Exceptional power made to last. A rugged metal outer jacket offers strong protection from shock, vibration and extreme temperature. Extremely thin, 99.99% pure lead plates offer more surface area and deliver far more power than conventional batteries.

Battery life and charging characteristics are affected by temperature. Optimum battery life will be achieved when the battery is operating between +20°C/+68°F and +25°C/+77°F. Figure 2 illustrates the design life at 20°C from Accelerated Float Life testing at 55°C. Battery life is reduced by 50% for every 10°C/18°F increase in

use the EnerSys Battery Sizing Application at *currently for 1.215 standard gravity only. Constant Power Discharge Performance Data 1.250 Specific Gravity Discharge Rates (kW per cell*) to 1.75Vpc at 77°F (25°C)** Battery Type Minutes

Our ABSL batteries were the first rechargeable lithium-ion batteries flown in space, are the longest serving lithium-ion spacecraft batteries, and are the most demonstrated lithium-ion space batteries with more Lithium-ion flight heritage ...

EnerSys Advanced Systems (EAS) has locations in both the US and in Europe that focus primarily on lithium-ion technologies. EAS designs and produces batteries for a wide variety of applications including

military, space, medical, ...

The PowerSafe DDM battery system's cutting-edge technology incorporates an enhanced cell design with a superior racking system. The enhanced cell incorporates thicker positive ... Visit us at Features and Benefits o Capacity: 292-4094 Watts per Cell (WPC) - 15 min. rate to 1.67 VPC @ 77°F (25°C)

See battery* status on any smart device. Not knowing a battery's true condition can lead to trouble. But with the ODYSSEY Connect battery monitoring system, you'll be traveling with the market's first "smart" AGM battery, so you can monitor battery health issues long before they spoil the trip. Featuring patented technology, the ODYSSEY Connect system monitors battery State ...

Whether it's a heavy duty commercial truck, an earth mover, a bus or a marine application, you depend on the vehicle's electronics to provide valuable data, direction and even safety features. Therefore, you need a battery that can power those features without worry of failure. ODYSSEY Performance Series(TM) 4D-1300 batteries meet the ever-increasing power demands of today's ...

advanced technology batteries. Today EnerSys; is at the forefront of modern energy storage. No other manufacturer has the o Experience o Technology o Geographic reach Each generation of submarine demands more from its batteries in terms of energy and power density, reliability and service life. EnerSys; is unique -- the only manufacturer

ABSL(TM) Space Batteries ABSL(TM) batteries are the world's leading range of Lithium-ion (Li-ion) batteries for space applications. ABSL batteries undergo stringent design, structural and thermal analysis to ensure that their performance meets and exceeds the most demanding requirements for man-rated, high-voltage and long-life missions. Request ...

This document is proprietary to EnerSys. This document cannot be copied or reproduced in whole or in part, nor can its contents be revealed in any manner or to any person except to meet ... EnerSys flooded lead-acid batteries set the benchmark for reliability and durability in flooded lead-acid batteries and battery systems. 1.2 Precautions ...
