

Where is the solar power plant located in Benin?

The government of Benin is inaugurating the Illoulofin photovoltaic solar power plant. The facility, located in the commune of Pob&#232;, Plateau department, has a capacity of 25 MWp. Benin is inaugurating its first large-scale solar photovoltaic power plant. The installation, located in the locality of Illoulofin, was recently commissioned.

Who can benefit from a new off-grid solar scheme in Benin?

Households, smallholders and entrepreneurs in remote locations across Benin will be able to access reliable and cheap electricity for the first time under a new off-grid solar scheme agreed between leading solar energy company ENGIE Energy Access and the European Investment Bank, one of the world's largest financiers of renewable energy.

Who are the actors in the solar industry in Benin?

The Interprofessional Association for Renewable Energy Specialists (AISER - B&#233;nin) is one of the main actors in the private sector for solar products and installations in Benin. It is an association for promotion and advocacy of renewable energy in Benin.

What energy sources does Benin have?

Benin has several sources of energy including natural gas and oil. Oil production in the country began in 1982 at the Seme offshore oil field, operated by Saga Petroleum Company. Although the country is not a major producer of oil, this sector has contributed significantly to its foreign earnings.

Who is responsible for generating electricity in Benin?

Societe Beninoise d'Energie Electrique (SBEE) is responsible for generating around 13% of electricity in Benin through diesel generators. ABERME (Agence Beninoise d'Electrification Rurale et de Maitrise d'Energie), on the other hand, is responsible for rural energy supply.

Will EIB support Engie to deploy off-grid solar power in Benin?

The new Benin cooperation follows EIB's previous support for ENGIE to deploy off-grid solar power in Uganda. Benin is the sixth African country to benefit from the EIB's streamlined support for African off-grid energy investment, following recent backing for projects in Mozambique, Uganda, Chad, the Democratic Republic of Congo and the Comoros.

Solar PV . Business model ... G&#233;n&#233;rle du Solaire International and Africa Renewable Energy System & Solution ("ARESS") have developed a portfolio of 12 mini grids in B&#233;nin. ... The total project costs of c. EUR 9m is partially financed by subsidies from the MCA-Benin II Offgrid Clean Energy Facility. Investment disclosure.

Energy minister Jean Houssou has commissioned the 25MW Defissol solar PV plant, Benin's first large solar PV project. The project was financed by Agence Française de Développement, the European Union and Société Béninoise d'Énergie Électrique. ... We can answer any questions you may have and discuss how the platform can be best used to ...

MCC is proud to have partnered with the Government of Benin to strengthen the national power grid, improve utility management, attract private sector investment into solar power generation, and by bringing power to rural and underserved ...

Image: Présidence du BéninThe government of Benin has announced the commencement of construction on the Forsun PV power plant, a 25 MW solar project that will increase the total capacity of the Illoulofin Solar Power Station from 50 MW to 75 MW. The expansion involves three solar arrays and represents a significant step in the country's ...

Despite the abundant energy resources available in Benin (Adamon et al., 2020), the power sector is still subject to regular power cuts and recurrent electricity crises (Akpahou, Odoi-yorke, et al., 2023). Most of the country's electricity supply is imported from Ghana, Nigeria, and Togo (Mensah et al., 2022). However, the country's considerable untapped ...

Households, smallholders and entrepreneurs in remote locations across Benin will be able to access reliable and cheap electricity for the first time under a new off-grid solar scheme agreed between leading solar ...

SummaryLocationOverviewDevelopersConstruction timeline, costs and fundingSee alsoIlloulofin Solar Power Station, is a 50 megawatts (67,000 hp) solar power plant in Benin, whose first 25 MW was commissioned on 19 July 2022, and the next 25 MW is under construction and is expected to come online in 2025. The solar farm is under development by the Government of Benin, with funding from the European Union (EU), the French Development Agency (AFD) and the Beninese Electricity Company (SBE...

A new electricity code has been ratified by Benin's National Assembly. In addition to opening up the energy sector to private investors, the text paves the way for the development of the solar sector. It aims to preserve forests, combat ...

Energicity is pleased to announce our subsidiary Weziza Benin has signed a 20 year concession agreement with the Republic of Benin to provide solar powered electricity to power 20 rural communities!
