

What is a sicona battery?

Sicona leverages low cost and abundant silicon metal to develop next-gen battery materials in this generation. Sicona produces Silicon-Carbon (SiC) anode materials that supercharge next-gen Lithium-ion batteries.

What makes sicona a good battery material?

Our innovative battery materials technology delivers an +20% increase in energy density and an +40% increase in the charge rate over conventional graphite-only Lithium-ion battery cells. By leveraging silicon metal, Sicona delivers high performance battery materials at mass market scale, without costing the earth.

What makes sicona a good battery anode?

By leveraging silicon metal, Sicona delivers high performance battery materials at mass market scale, without costing the earth. Sicona's SiC_x(TM) battery anode materials enable improved performance of today's Lithium-ion batteries at unmatched price and scale.

Why is sicona a sustainable battery?

Responsible Consumption and Production of renewable energy is enabled and accelerated by our sustainable battery technology. Sicona's SiC product will reduce irresponsible reliance, production and consumption of fossil fuels in the transport industry, and accelerate the transition to global electrification and a sustainable energy future.

Where is sicona battery technologies located?

Sicona Battery Technologies is located in Alexandria, New South Wales, Australia. Who invested in Sicona Battery Technologies? Sicona Battery Technologies has 9 investors including Waratah Capital Advisors and Chaos Ventures. How much funding has Sicona Battery Technologies raised to date? Sicona Battery Technologies has raised

How many investors does sicona battery technologies have?

Sicona Battery Technologies has 9 investors including Waratah Capital Advisors and Chaos Ventures. How much funding has Sicona Battery Technologies raised to date? Sicona Battery Technologies has raised. When was the last funding round for Sicona Battery Technologies?

This latest capital injection follows the company's \$1m seed round in July 2020, the award of a \$704k "Accelerating Commercialisation" Grant by the Australian Federal Government in November 2020, and Sicona's participation in the prestigious Startmate accelerator in its Summer 2021 climate technology cohort.

delivers an +20% increase in energy density and an ...

Today, leading research company HolonIQ announced the highly anticipated Indo-Pacific Climate Tech 100, featuring Sicona Battery Technologies as one of the top climate tech startups from Australia.

Australia's Sicona plans US silicon anode manufacturing facility. May 14, 2024. Australia's Sicona plans US silicon anode manufacturing facility Posted Australian battery materials producer Sicona Battery Technologies plans to expand into the US battery component market by developing a commercial production facility somewhere in the southeastern US.

Sicona Battery Technologies, an Australian battery materials innovator, today announced its expansion into the fast-growing United States battery component market with the development of its first commercial production facilities in the south-eastern United States near the geographic heart of the growing U.S. battery and electric vehicle ...

Sicona leverages low cost and abundant silicon metal to develop next-gen battery materials in this generation. Because today is just in time. ... Sicona Technologies Inc. (US Subsidiary) Postal Address 5865 Ridgeway, Center Parkway, Suite 300, Memphis, TN 38120, United States.

Sicona develops next generation battery technology used in the anodes (negative electrodes) of lithium-ion ("Li-ion") batteries that enable electric-mobility and storage of renewable energy. Sicona is commercialising an innovative silicon ...

Australia-based Sicona Battery Technologies will build its first silicon-carbon anode materials production plant in the Southeastern U.S., the company announced on Monday. The plant will produce 6,700 tons of silicon-carbon per year, making it the largest producer thus far in the U.S., according to the company.

New funds to be used to accelerate commercial development plans in the US . SYDNEY, June 14, 2023 /PRNewswire/ -- Sicona Battery Technologies ("Sicona") today announced it has raised AU\$22 million ...

This latest capital injection follows the company's \$1m seed round in July 2020, the award of a \$704k "Accelerating Commercialisation" Grant by the Australian Federal Government in November 2020, and Sicona's ...

Sicona Battery Technologies (Sicona) is a Sydney based battery technology company. Sicona develops next generation battery technology used in the anodes (negative electrodes) of lithium-ion ("Li-ion") batteries that enable electric-mobility and storage of renewable energy. Sicona is commercialising an innovative silicon-
