What is MV Bess?

Centralized,large MV BESS can be installed in prefabricated enclosures with packaged HVAC units that are located exterior to a facility saving construction costs. Modular,highly configurable,grid-scale energy storage systemare commercially available and designed to support the most demanding applications.

Can a Bess system be integrated at the MV level?

Integration of a BESS system at the MV level would require the BESS system to detect any anomaly directly,without the need of an external protective relay,and the use of MV static switches adequately rated to guarantee operation times of the electrical system within 12 ms to 15 ms.
