What makes a good Tier 1 manufacturer?

On the other hand, one of the characteristics of a tier 1 manufacturer is transparency and good data availability. A manufacturer can help us tier them accurately by sending us (at solartiering@bloomberg.net) data on the projects they have provided modules for, and the financing used to support these projects.

Are Tier 1 solar panels better than Tier 2 solar panels?

Tier 1 solar panels provide reliable warranties, ensuring that their 25-year performance guarantee will be honored. In contrast, while a Tier 2 company may offer warranty support, it is generally less dependable. In terms of quality, both tiers use similar production and assembly lines, but Tier 1 panels have a lower likelihood of defects.

What does 'bankability' mean in tiering a solar project?

Definitions 'Bankability' - whether projects using the solar products are likely to be offered non-recourse debt financing by banks - is the key criterion for tiering. Banks, and their technical due diligence providers, are extremely unwilling to disclose their whitelists of acceptable products.
