

Where is Kleczew solar & wind located?

The farm is located on post-mining land in the Konin powiat, Wielkopolskie voivodeship. Kleczew Solar & Wind will be one of the largest renewable energy parks in Central and Eastern Europe, and the first large-scale project in Poland to combine solar and wind technologies.

Will a 100 MW solar plant be built in Botswana?

State-owned Botswana Power Corp. has signed a power purchase agreement with a consortium of Chinese enterprises and other companies to construct a 100 MW solar plant in southern Botswana. The project is expected to start generation by the end of 2025.

How will a solar power plant benefit Botswana?

The solar power plant will ensure that approximately 48,000 tons of CO₂ emissions will be avoided and power approximately 20,000 households annually. Botswana is rich in natural resources and has vast solar energy potential, receiving over 3,200 hours of sunshine per year.

Who owns Kleczew solar & wind project?

We are pleased to share that Lewandpol Group entered into a conditional sale agreement of Kleczew Solar & Wind project with Grupa Energa, part of ORLEN S.A.

Who prepared the Kleczew solar & wind project?

The Kleczew Solar & Wind project was prepared by E&G of the Lewandpol Group as the investor, and Ergy as the project's asset manager and lead advisor to the investor.

When will Botswana start generating electricity?

The facility is expected to start generation by the end of 2025. Botswana's President, Mokgweetsi Masisi, said the project is a key milestone in the country's energy transition. "Our journey toward energy security and transition has begun in earnest and is unstoppable.
