"We don't need air con": how Burkina Faso builds schools that stay cool in 40C heat Architects use local materials and merge traditional techniques with modern technology to make schools and orphanages cool, welcoming places by Èlia Borràs in Burkina Faso Thu 29 Feb 2024 07.43 EST

The energy kit will consist of a solar PV system, an air condition with an ice storage unit, a refrigerator, three ceiling fans, ten lamps, and a TV. The results of this project should convince household owners and office building owners to ...

The group of authors from the Solar Thermal Unit of the National Centre for Energy Research and Development at the University of Nigeria Nsukka said that a 2013 survey on solar water heating in homes, schools, hospitals and hotels "revealed shocking results of nearly complete unawareness of solar thermal technology among the target group".

The German heating technology manufacturer Viessmann Climate Solutions has been part of Carrier Global, the largest US manufacturer of air conditioning systems, since March 2023. This merger is now also beginning to bear fruit in Germany. The German town of Bracht is not only benefiting from a turnkey solar heat ...
