A groundbreaking ceremony took place on 18 January for a 7.5MW solar park being developed by Gigawatt Global at Mubuga, 100km east of Bujumbura (AE 287/6). The US-owned Dutch developer described the \$14m project as the largest private international investment in the power sector in Burundi in nearly 30 years. Power will be sold for 25 years to state power ...

By adopting solar energy, MSMEs using the national grid and standby generators can cut down their average monthly energy expenditure by 36.64%. MSMEs' decision to adopt solar energy is influenced by trade-offs between the possible production, economic and environmental effects as well as business owners, business, and product characteristics.

While solar subscriptions may seem like a convenient and cost-effective way to go green, they often fall short financially compared to purchasing or other financing options. By owning your solar system, you can take full advantage of financial incentives, increase your property's value, and enjoy more predictable savings on your energy bills. ...
