WEEE requests that 80% of EOL PVs materials should be recycled, and most technologies can easily achieve this. But currently, the rest 20% of materials that are not recycled are responsible for the most pollution. PV Circulator recycles all EOL PVs without any material loss and pollution, turning the environmental impact into sustainability.

TSGC provides an eco-friendly & economical recycling solution for solar panels with 100% recovery rate! In addition to automatic recycling equipments for recyclers, we also provide free ...
