

Who is Drax Group plc?

Drax Group plc, trading as Drax, is a power generation business. The principal downstream enterprises are based in the UK and include Drax Power Limited, which runs the biomass fuelled Drax power station, near Selby in North Yorkshire. The Group also runs an international biomass supply chain business.

How many generating companies did Drax Power Station have?

Three generating companies and 12 regional electricity companies were created. As a result of privatisation, Drax Power Station came under the ownership of National Power, one of the newly formed generating companies. Over the years that followed privatisation, the map of the industry changed dramatically.

Did Drax buy Opus Energy?

In 2016, Drax Group acquired Opus Energy for £340 million funded by a new acquisition debt facility of up to £375 million. In October 2017, Drax sold Billington Bioenergy for £2 million to an AIM-listed energy company called Aggregated Micro Power Holdings.

Why did Drax push back the start of new gas-fired power stations?

In November 2024, Drax Group Plc pushed back the start of three new gas-fired power stations in South Wales, Suffolk, and Bedfordshire to next year because of delays in getting the units connected to the grid. Drax had previously stated that the facilities would start in Autumn 2024. Drax Group's key asset is Drax Power Station.
