The British Indian Ocean Territory (BIOT) is a small archipelago in the central Indian Ocean. It doesn't have a traditional economic driver due to its limited population and function as a military facility for the UK and US. However, there are a few key sectors that provide employment and contribute to the territory's upkeep. Military and Defense

With increasing demand for solar power in residential applications, the need for smarter and well-connected solutions has never been more important. The high penetration of renewable energy, together with the continuous growth in demand for a highly reliable energy supply means that solar inverters need to be equipped with storage and be easily integrated with complex and ...
