ENERCON began its road to economical / ecological success when graduate engineer Aloys Wobben founded the company in 1984. A small team of engineers developed the first E-15 / 16 wind turbine with a rated power of 55 kW. To start with, ENERCON systems still featured gearboxes. However in 1992, the changeover to gearless technology came about with the first ...

Renewables Now is a leading business news source for renewable energy professionals globally. Trust us for comprehensive coverage of major deals, projects and industry trends. We've done this since 2009. ... German wind turbine maker and installer Enercon GmbH has installed 2,421 MW of turbines in 2023, a 28% increase from the prior year. ...

ENERCON serves several markets throughout the energy sector, including data centers, mission critical facilities, the federal government, industrial, nuclear power, power delivery, grid infrastructure, power generation, and renewable energy. Learn ...
