

What is Portugal doing to reduce energy consumption?

Portugal is taking firm steps to reduce energy consumption, use its resources more efficiently, provide more sustainable mobility, achieve greater security of supply, and diversify its renewable energy footprint. Energy Solutions is one of the areas where Portugal stood out at HANNOVER MESSE'22.

What is Portugal's energy sector policy?

Delegate: Prof. Luís Gato, Instituto Superior Técnico (IST), IDMEC - Instituto de Engenharia Mecânica. Portugal's energy sector policy aims to decarbonise the energy supply and reduce energy import dependency primarily through broad electrification and a rapid expansion of renewable electricity generation, along with increased energy efficiency.

Why is wind energy important in Portugal?

Wind energy remains a crucial component of Portugal's electricity production, accounting for 25% of the total. Meanwhile, the rapid expansion of hydroelectric and solar energy capacity is helping Portugal meet growing energy demands in a sustainable way.
