The government of Equatorial Guinea is installing a self-sufficient solar microgrid project in Annobon Province in partnership with three American companies: the consulting firm MAECI Solar, GE Power & Water and Princeton Power Systems. This project will be Africa's largest self-sufficient solar microgrid and will bring significant benefits to the West African nation.

The members of the Block O contractor group are Noble Energy, which serves as the technical operator, Glencore Exploration Limited and Compañía Nacional de Petróleos de Guinea Ecuatorial. The Punta Europa parties include Alba Plant LLC, Alba Unit and Equatorial Guinea LNG Train 1, S.A. Photo credit: Offshore Energy Today

Noble Energy has given the go-ahead for the development of the Alen natural gas project located offshore Equatorial Guinea (EG).. The majority of the Alen field is located on Block O (95%), while a portion of the field also lies in Block I (5%). Noble Energy is the operator of the field with a working interest of around 45% in the project, which translates to 45% of Block O and 38% of ...

Abia knows the industry well, being one of the executives of the Equatorial Guinean subsidiary of Trident Energy (co-operator, with Kosmos Energy, of the Ceiba and Okume fields since 2017). As we revealed, in 2019 Abia was viewed as a possible local content director in the oil ministry and even as a deputy minister (Africa Intelligence, 30/04 ...

Equatorial Guinea's Ministry of Mines and Hydrocarbons (MMH) has announced the key companies shortlisted for the execution of its landmark projects under its ongoing Year of Investment. At Punta Europa, where most of Equatorial Guinea's gas and energy activities are currently located, the country plans to build a

modular refinery, storage tanks and a methanol ...

Although Noble Energy reiterated its desire to push ahead with the Alen gas monetization project in Equatorial Guinea, with an initial production date of early 2021, the project's lead pipeline contractor, Saipem, has remained, on the other hand, cautious because of the likely impact of COVID-19 on oil and gas projects in the near term.. Saipem cites the example of the shift ...
