

Why should you install solar panels in Estonia?

The energy productivity of solar panels installed in Estonia is equivalent to the southern countries, as Estonia's cooler climate increases the efficiency of solar panels. We offer our customers turnkey construction of a solar park, starting from the design to the connection point, the construction of substations.

Who is the company Mysolar?

The main activity of the company is the sale and installation of solar panels. Company MySolar has been offering solar systems and project work for homeowners all over Estonia since 2015. The company is the sole representative of Italian and German panel brands in Estonia.

Who sells electricity in Estonia?

In Estonia's electricity market, Eesti Energia is the largest seller with a 60% market share and owns the largest distribution network, representing 86% of the distribution market. The Estonian Competition Authority (ECA) regulates transmission and distribution rates, as well as connection charges. Electricity in 2020:

How much solar radiation does Estonia produce a year?

In Estonia, the amount of solar radiation is comparable to Central Europe; the average amount of radiation has an optimal slope and azimuth of 1100-1200 kWh/m², 85% of which falls between April and October. An optimally installed 1 kW PV plant produces 900 to 1000 kWh of energy per year.

Is there enough sunshine in Estonia?

Common myths that say there is not enough sunshine in Estonia are not true. For example, solar systems efficiency can be easily compared with systems placed in Northern Germany. The fact that our climate is slightly cooler is an advantage over Germany's larger daily dose of sunshine.

In Estonia, the amount of solar radiation is comparable to Central Europe; the average amount of radiation has an optimal slope and azimuth of 1100-1200 kWh/m², 85% of which falls between April and October. An optimally installed 1 kW PV plant ...

Estonia-based renewable energy developer Sunly has launched construction of the largest solar park in the Baltics, the 244-MW solar park in Risti, Estonia, with co-founder and CEO Priit Lepasepp and partners ceremonially installing the first panels on November 22.
