

How many power plants are there in Eswatini?

There are currently five power plants operating in Eswatini with a total installed capacity of close to 110 MW. These plants utilize hydro, biomass, and solar PV plant technologies. The rest of the electricity required is imported from South Africa (Eskom) and occasionally Mozambique (EDM).

What is Eswatini's electricity company called?

The Eswatini Electricity Company, hereinafter referred to as 'the Employer', is a vertically integrated parastatal company responsible for the generation, transmission, and distribution of electric power throughout Eswatini. The Employer's address is: Address is the same as above.

Can solar power help Eswatini achieve its electrification goals?

Although Eswatini's electrification rates are relatively high, they are still a long way off 100% (the country's target for 2022). Solar power is the most viable solution for Eswatini to help meet its electrification goals and save costs down the line.

Edwaleni Power Station Solar PV Park is a 100MW solar PV power project. It is planned in Manzini, Eswatini. The project is currently in permitting stage. It will be developed in single phase. Post completion of the construction, the project is ...
