

How will the Electra project support the government of Cabo Verde?

Finally, the project will support the Government of Cabo Verde's goal to mobilize private and public capital for energy sector investments, by increasing stakeholders' capacity and supporting the restructuring and privatization of the electricity utility ELECTRA.

Does Cape Verde have electricity?

Cape Verde has but one electricity company (Electra) and Cape Verde has one of the highest electricity prices in the world. Furthermore, the electric system is inefficient and registers energy losses of around 30%.

Will Cabo Verde privatize Electra?

" The project will build on recent efforts from the World Bank to support the Government of Cabo Verde in the privatization of the electricity utility ELECTRA. A first step has been taken with the enactment of the power sector reform decree law, supported by the Cabo Verde First Equitable and Sustainable Recovery Development Policy Financing.

Is Cape Verde a viable alternative to fossil fuels?

Solid waste can also represent an adequate option while ocean and geothermic energy are being tested, with uncertainties remaining as to their efficiency. Cape Verde has an estimated potential of 2,600 MW of renew-able energy, and more than 650 MW have been studied in concrete projects, which have lower production costs than fossil fuels.

How has Cabo Verde changed Cape Verde's energy supply?

Cabo Verde has transformed Cape Verde's energy supply, off-setting diesel imports by around 15 million litres a year. In 2013, the first year Cabo Verde was fully operational, this resulted in approximately US\$1.5 million in savings for Electra S.A.R.L.

How many wind turbines are there in Cape Verde?

The project constructed 30 wind turbines across four of Cape Verde's islands (Boa Vista, São Vicente, Sal and Santiago) and established Cabo Verde SA as the first Public Private Partnership (PPP) to deliver commercial scale wind power in sub-Saharan Africa.
