

Why is ExaGrid the leader in backup storage?

Learn why ExaGrid is the leader in backup storage. ExaGrid provides tiered backup storage with a unique disk-cache Landing Zone, long-term retention repository, and scale-out architecture. ExaGrid has the only non-network-facing tiered backup storage solution with delayed deletes and immutable deduplication objects.

What is ExaGrid tiered backup storage?

ExaGrid has the only non-network-facing tiered backup storage solution with delayed deletes and immutable deduplication objects. This unique approach ensures when a ransomware attack occurs, data can be easily recovered or VMs booted from the ExaGrid Tiered Backup Storage system.

Where is backup data stored in ExaGrid?

Backup data is kept in the ExaGrid internal storage on an industry-standard logging filesystem where file activity is logged for integrity and quick repair after an unclean shutdown.

Is ExaGrid good for large backup jobs?

ExaGrid is designed and optimized for large backup jobs. ExaGrid uses all the following techniques to achieve the fastest backup performance. In side-by-side tests ExaGrid is faster than any other storage for ingest performance resulting in the shortest backup window.

Does ExaGrid retain backup data after a ransomware attack?

ExaGrid has all previous backups before the ransomware attack that can be restored immediately. In addition to being able to recover from the most recent deduplicated backup, the system still retains all the backup data according to the retention requirements. Note: see ExaGrid's Retention Time-Lock data sheet for more detailed information.

Does ExaGrid support backup data from multiple sources?

ExaGrid supports backup data from multiple sources, including a variety of backup applications and database dump utilities. Performing deduplication in the backup application software limits the ability to have all data from all sources stored and deduplicated in a single target device.

Veeam é um ExaGrid Parceiro Tecnológico. O ExaGrid Tiered Backup Storage está mudando a economia do backup da Veeam. O modelo econômico de crescimento escalável da ExaGrid tem um custo inicial menor e um custo menor ao longo do tempo em comparação com soluções de disco padrão e soluções tradicionais de armazenamento com deduplicação.

The ExaGrid Cloud Tier allows customers to replicate deduplicated backup data from a physical onsite ExaGrid appliance to the cloud tier in Amazon Web Services (AWS) for an offsite disaster recovery (DR)

copy. ... With ExaGrid's Tiered Backup Storage, each appliance in the system brings with it not only disk, but also memory, bandwidth, and ...

ExaGrid provides tiered backup storage with a unique disk-cache Landing Zone, long-term retention repository, and scale-out architecture. ExaGrid's Landing Zone offers the fastest backups, restores and instant VM recoveries. The ...

ExaGrid Achieves 15 Consecutive Quarters of Free Cash Flow, EBITDA, and P& L Positive Operations. Marlborough, Mass., October 8, 2024 - ExaGrid's, the industry's only Tiered Backup Storage solution with Retention Time-Lock that includes a non-network-facing tier (creating a tiered air gap), delayed deletes and immutability for ransomware recovery, today ...

ExaGrid, a Massachusetts-based technology firm, is challenging industry giants with its innovative "tiered backup storage" solution. At a recent briefing during the 58th IT Press Tour in Boston, ExaGrid CEO Bill Andrews laid out the company's strategy for tackling the \$6+ billion backup storage market. A Laser Focus on Backup Storage

ExaGrid Product, Partnerships, and Team Recognized at "The Storries XXI" in London . Marlborough, Mass., June 18, 2024 - ExaGrid's, the industry's only Tiered Backup Storage solution with Retention Time-Lock that includes a non-network-facing tier (creating a tiered air gap), delayed deletes and immutability for ransomware recovery, today announced ...

ExaGrid's Tiered Backup Storage with a disk-cache Landing Zone lands backups straight to disk without any inline deduplication processing. Backups are fast and the backup window is short. Deduplication and offsite replication occur in parallel with the backups and never impede the backup process as they are always second order priority.

ExaGrid Named as a Representative Vendor in Report. Marlborough, Mass., (December 12, 2023) - ExaGrid's, the industry's only Tiered Backup Storage solution, today announced that it has been named as a Representative Vendor in the November 2023 Gartner Market Guide for Enterprise Backup Storage Appliances. Organizations can use a Market ...

ExaGrid unterstützt eine Vielzahl von Backup-Anwendungen, Dienstprogrammen und direkten Datenbank-Dumps. Darüber hinaus ermöglicht ExaGrid mehrere Ansätze innerhalb derselben Umgebung. Eine Organisation kann eine Backup-Anwendung für ihre physischen Server, eine andere Backup-Anwendung oder ein anderes Dienstprogramm für ihre virtuelle Umgebung ...
