On my first Faroe Islands trip, this was a place I returned to over and over again, to wander across the hillsides, to watch the ethereal bay fill with water and to wait for the entire valley to be bathed in soft golden light. It's also possible to walk around the bay to the beach beyond at low tide, just be sure to keep an eye on the tides.

Les panneaux solaires offrant la meilleure puissance. Critères techniques : La puissance maximale (ou puissance crête) est déterminée par le type de cellules comme nous l'avons vu précédemment mais aussi par leur nombre : plus de cellules en série = plus de tension = plus de puissance.
