A wet day is one with at least 0.04 inches of liquid or liquid-equivalent precipitation. The chance of wet days in Falkland Islands varies throughout the year. The wetter season lasts 5.2 months, from November 20 to April 27, with a greater than 27% chance of a given day being a wet day. The month with the most wet days in Falkland Islands is March, with an average of 9.7 days with at ...

UK-based oil and gas E& P company Rockhopper Exploration has inked a definitive deal with Harbour Energy and Israel's Navitas Petroleum, which will open the door for Navitas to enter the Sea Lion project located off the Falkland Islands. Development concept for Sea Lion Phase 1; Source: Rockhopper

According to GlobalData, Offshore Technology's parent company, Sea Lion is a conventional oil development located in deep water in the Falkland Islands. Discovered in 2010, its lies in block 14/05 and 14/10, with water depth of around 1,485ft. A statement from the islands" government over the weekend again reiterated its independence from the UK, adding that the ...
