

Who is gencell?

GenCell Ltd. is an Israeli company developing hydrogen alkaline based fuel cell systems and solutions that replace diesel generators with clean backup power for utilities, homeland security, healthcare and automated industries, as well as Ammonia (NH₃) based off-grid power solutions.

Why do we need gencell?

The world needs reliable and accessible clean energy. GenCell's award-winning fuel cell technologies are creating climate resilience and healthier communities. Harnessing the power of Earth's most abundant elements through our innovative energy solutions, GreenFSG fuels, stores, and generates cost-effective, clean power.

How much does a gencell Generator cost?

GenCell is field testing prototypes of small scale fuel cells fueled by ammonia. This ammonia-to-energy technology will provide clean energy users with another alternative. A GenCell A5 4kW generator costs 60,000-70,000 USD.

Will gencell A5 power Iceland's emergency communications system?

GenCell estimates that local production of ammonia will help reduce energy production costs, and will allow its generators to run at 70 cents per kWh. ^ "GenCell A5 to power Iceland Emergency Communications System | Renewable Energy | Energy Digital". Retrieved 2021-01-25.

Can gencell produce green ammonia?

By developing a groundbreaking and disruptive low-pressure, low-temperature method to produce green ammonia from only sun, air and water, GenCell will soon be able to add on-site production of green fuel to create sustainable energy economies anywhere.

What technologies did gencell develop?

GenCell developed a number of patented technologies, including the use of a non-platinum catalyst, mechanisms for using ambient air as an oxidizer (instead of pure oxygen), and using lower-cost fuels such as industrial-grade hydrogen gas or anhydrous liquid ammonia.

Explore GenCell's resilient, zero-emission hydrogen solutions enabling backup, off-grid, EV charging and microgrid power applications. ... access to electric vehicle charging, and sustainably fuel, store, and generate electricity on-site. As the clean energy markets expand, GenCell's power solutions are solving these problems and more ...

GenCell G10 -Key Developments o Project is currently under development and the product launch is expected in 2023 Production Line Expansion o Adaptation of the production line to enable ...

in a far superior position as a well-to-wheel total green energy solution provider. GenCell delivers resilient, robust and weather-resistant backup power for utilities, telecom, EV charging and other mission-critical applications which have been deployed in 22 countries. Our ammonia-based hydrogen-on-demand solution provides primary power

INTRODUCING THE GENCELL EVOX (TM). With the steady, steep rise in EVs entering our roads, the electricity infrastructure can't keep up. Grid expansion is complex and slower than that of EVs expansion - causing the main barrier to expanding charging infrastructure and reinforcing EV drivers' range anxiety. GenCell's EVOX(TM) is a disruptive technology that fills this gap.

State of Mexico Utility CFE Exercises Option to Double its Order of Additional GenCell REX(TM) Backup Power Units. Petah Tikva, Israel - August 12, 2024 - GenCell's Energy, (TASE: GNCL), a leading provider of hydrogen-to-power solutions, announced today that Comisi#243;n Federal de Electricidad (CFE), Mexico's state-owned utility and the largest utility in ...

Hi, I'm John Felts, GenCell's US Western Region Sales Manager and I'm really excited about the opportunity to participate on the panel "Partnering with Utilities" at the upcoming EV Charging Infrastructure West conference being held on February 7th and 8th at the Grand Hyatt SFO (San Francisco International Airport) in San Francisco.

GenCell Energy has more than 80 employees, including many veterans of space and submarine projects. The company is headquartered in Israel with a worldwide distribution and support network and has unique intellectual property that includes ...

o Using innovative and reliable fuel cell technology, GenCell provides affordable, clean backup power for telecom, homeland security, healthcare and automated industries in 18 countries ...

Sacramento, CA. August 5, 2024: GenCell and its sponsors from the California Mobility Center (CMC) and the Sacramento Clean Cities Coalition had a busy but successful day running the EVOX EXPO at the CMC. A large crowd of EV, renewable energy and cleantech professionals from the public and private sectors gathered at the CMC Ramp-up Factory in Sacramento to ...

Petah Tikva, Israel - December 21, 2020 - GenCell Energy, GNCL (TASE), a leading Israel-based manufacturer of fuel cell energy solutions, today announces that following participation in an international tender for backup for substations executed by Comisi#243;n Federal de Electricidad#174; (CFE) the state-owned and largest utility in Mexico ...

GenCell Energy, an Israel-based manufacturer of fuel cell energy solutions, has announced that the company has successfully completed an advanced testing period of its experimental GenCell A5 off-grid hydrogen power solution in Iceland. Yoana Cholteeva June 21, 2021. Share Copy Link; Share on X ...

The GenCell BOX(TM) and GenCell REX(TM) long-duration backup power solutions for mission-critical applications and for utility substations have been designed to deliver zero-emission, climate-resilient power to ensure ...

Petah Tikva, Israel - September 10, 2020 - GenCell Energy, a leading Israel-based manufacturer of fuel cell energy solutions, today announces that it successfully completed integration between the Enapter AEM Electrolyzer and the GenCell alkaline fuel cell.

GenCell Energy (TASE: GNCL) develops total green power solutions based on reliable, zero-emission alkaline fuel cells, hydrogen, ammonia, and water-to-power technologies. Our goal is to deliver uninterrupted power and help the world transition to clean energy. With resilient and weather-resistant backup power solutions, we support utilities, telecom, EV charging, and ...
