In 2019, Venezuela had installed 5.32 MW of solar power generation capacity and 71.28 MW of wind capacity. Venezuela plans to incorporate an additional 10,000 MW of wind energy by 2035. The use of renewable energy in remote areas would alleviate the risk of blackouts common to much of the country.

If you already have 240V appliances at home or in your RV or boat (e.g. a water heater, cooking range etc.), then it makes sense to get a 240V solar generator to power them. A 240V solar generator is also ideal if you are planning to buy some 240V appliances. You can power these appliances off-grid or keep them running in case of an emergency.
