GivEnergy Products. GivItToMe 8 June 2024 22:04 1. Hi all. First of likely many posts from a newbie. I've just had a solar & AIO battery installed and now trying to get my head around the functionality of the app. My battery is charged by solar during the day to 100%. I've noticed that by bedtime the battery has depleted to 2%, yet the house load ...

GivEnergy Community Forum Battery power loss. GivEnergy Products. Chauffeurman 1 October 2024 17:46 1. Hi New to this forum My batteries were at 45% then dumped power down to 14% in 30 mins but app shows minimal voltage use of 104 v tops Not gone to grid as my I boost didn't activate Any ideas?? ...

GivEnergy Community Forum Smart Plug relay clicking. GivEnergy Products. GivEnergy Other Products. Siviter 9 December 2024 09:09 1. Tried to use the smart plug again this morning. The relay simply clicks transmitting 240v throughput on each click but doesn't connect to WiFi. Any ideas to get the relay to hold?

want the best products, from the best team, at the best value for money. And that's ... Installing a GivEnergy home battery is a game-changer for your energy bills. Charge the battery when energy is cheap, then use your stored energy during expensive hours. Take back control

GivEnergy Products. 2201 30 July 2024 13:44 1. I'm generating solar power which is going FOC to the grid (don't yet have a smart tariff - no MCS) even though my battery is not 100%. ... Inverter - GivEnergy 5kW Gen 3 Hybrid - Max DC input per string 7.5kWp Max charge/Discharge 3300W/3600W; Battery - GivEnergy 9.5 kWh - Max charge/Discharge ...

Hi all, I have just had a system installed and thought all was going well... Until the last few days. I have my battery set to export at 4pm to 6pm with a min level of 50%. If my battery is below 50% during the export times the house pulls from the grid and it looks like my battery pauses everything. If I adjust the export time to a past time in the day, the house starts ...

All data from the PCS is reported regularly to the GivEnergy cloud. You get: Remote control. Mode selection and timed control are available via the web app, enabling a full remote monitoring platform. Data access. As well as broad power and energy values, you also get granular data such as cell voltages and pack temperatures.

Hi. I had a solar install last week with GivEnergy AIO battery and Gateway. The battery has given me nothing but headaches. I want to be able to time my charge and discharge to take advantage of cheap Agile rates, but it simply doesn't work. For example, if I set a timed discharge, the battery does a full export to the grid as if Timed Export were set. The timings ...

Brilliant support from the boys that monitor the FB pages of GivEnergy. Any time, any problem they're on it. Either setting or resetting, supporting and fixing user mistakes without question. So much commitment to their company, so interested in great service and their users. Great job GivEnergy employees!

Stop paying for peak energy charges. With a home battery storage system, you can store up free energy from renewables, or use the grid to charge your battery overnight when energy costs are low. You can then switch to battery power and run your home on low-cost, sustainable energy.
