

What is a battery box?

Battery boxes typically have two parts: a base and a lid. The base prevents batteries from shifting and collects any spilled acid. The lid allows easy access to the batteries for maintenance or altering your cable configuration. We offer battery containers made from plastic (polypropylene and polyethylene).

What is a battery box made of?

The base prevents batteries from shifting and collects any spilled acid. The lid allows easy access to the batteries for maintenance or altering your cable configuration. We offer battery containers made from plastic (polypropylene and polyethylene). Find your ideal plastic battery box for sale below.

How does a battery box work?

When a battery needs to be left outside or is exposed to water or other elements the box creates a protective seal. This seal also protects against sunlight, rain, dirt, oil, and gasoline. Battery boxes typically have two parts: a base and a lid. The base prevents batteries from shifting and collects any spilled acid.

Why do you need a battery box?

Everything you need to store, relocate, and secure your batteries. Car and marine battery boxes help maximize the life of your battery. When a battery needs to be left outside or is exposed to water or other elements the box creates a protective seal. This seal also protects against sunlight, rain, dirt, oil, and gasoline.
