

Does gogreensolar offer a warranty?

This guarantee only applies to our standard solar system kits, it does not apply to custom orders or solar systems not designed by our engineers. GoGreenSolar is the leader in DIY solar panel systems. Our DIY solar kits include end-to-end design and installation support from our experts.

What is a solar panel kit?

Our solar panel kits for home are easy for you or a contractor to install. Each solar panel kit comes with solar panels, grid-tie inverters and mounting hardware and is customized to your energy needs and home's unique specifications. Take our quick questionnaire to create a custom solar panel kit based on your energy needs.

What is included in a solar panel kit?

Each solar panel kit comes with solar panels, grid-tie inverters and mounting hardware and is customized to your energy needs and home's unique specifications. Take our quick questionnaire to create a custom solar panel kit based on your energy needs. Offset your electricity bill and reduce reliance on the grid.

Are solar panels sold separately?

*Solar panels are not sold separately. Grid tie inverters convert solar DC power to home-friendly AC power and provide net metering capability. Batteries optimize cost savings by storing surplus energy when rates are lowest and utilizing it during peak demand times. They also serve as a reliable backup power source during outages.

Does gogreensolar offer a permit service?

Plus, GoGreenSolar is the only solar company that offers a permit service and complete technical support to help you install your ground mount solar panels correctly. *Listed pricing assumes a basic 3-row array -- your designed price may vary. Which inverter should I choose?

Does gogreensolar install ground-mount solar?

GoGreenSolar has decades of experience planning, designing and installing ground-mount solar. We go the extra mile for our customers, using USGS remote surveying technology to assess your site conditions and determine if ground-mount solar is a fit. Our solar drafters can draw up the exact configurations of your solar system.
