

Gtek is the manufacturer of the state-of-the-art mono/multi-crystalline solar photovoltaic (PV) modules which supply sustainable solar electric power to both on-grid and off-grid residential, commercial as well as industrial establishments.

Solar energy and photovoltaic plants. G-teK designs and provides power systems based on renewable sources of energy, particularly solar energy and photovoltaic plants.. The application fields of G-teK systems range from the generation of electric current by means of PV solar modules, optionally integrated in buildings to the production of heat for civil, industrial and ...

At a ceremony in Riyadh attended by LONGi and its partner Gtek Solar (Green Technology Company), it has been announced that LONGi has been awarded a module supply contract for the 400MW (DC) Rabigh Solar PV IPP project in Saudi Arabia via its EPC contractor, China Energy Engineering Group, Guangdong Power Engineering Company (GPEC).

G-teK designs and provides power systems based on renewable sources of energy, particularly solar energy, but also wind, hydro and biomasses. The application fields of G-teK systems range from the generation of electric current by means of PV solar modules, optionally integrated in buildings to the production of hot water for civil use.

Solar panels line the rooftop of the home of Cuban entrepreneur Felix Morffi, in the municipality of Regla, Havana. Large consumers in the residential sector could find in the installation of solar panels a way to offset the amount of their energy bill through cogeneration for self-consumption or receive a payment for injecting clean energy into the national power grid.

First photovoltaics and solar-thermal systems were developed. Then other renewable energy systems were introduced. For each technical field covered by the Group, G-teK can provide the right solution, thanks to relationship with some of the most important brands in the market. These are the fields where G-teK is involved: Photovoltaics

Energy produced through solar have several benefits and. advantages: - Safe and sustainable energy - Solar panels. have a long life term and minimal maintenance - Saving. the oil resources in the Kingdom - Easy expansion and. future development - Clean and free of polluton and. nuisance Energy. ??????????. ??????? ...

Gtek Solar,Solar Panel,Solar Panel,Saudi Arabia,Riyadh,Our company is an end-to-end, customer oriented alternative Gtek company that is centered on marketing, trading, transportation, and distribution of solar panels in the saudi arabia and midle east.

In 2015, Alluhaydan founded GTek, the first solar panel manufacturer in Saudi Arabia, marking a pivotal moment in the nation"s energy history. Despite limited awareness about solar energy in the country, he remained undeterred in his mission. GTek began modestly, with approximately 50 employees, but harbored grand ambitions from the outset.
