

GTI Energy sponsors and hosts prestigious industry events that bring together the world's leading experts and policy decision makers focused on solving important energy challenges. There are no events currently scheduled check back soon for our 2025 schedule.

GTI Energy's 3D modeling solutions provide unprecedented accuracy and detail, allowing utilities to visualize and interact with high-fidelity digital replicas of real gas utility assets. These precise models enable utilities to optimize asset ...

GTI Energy and Hydrogen Forward hosted a discussion series focused on the need to drive hydrogen demand. While much of the U.S. hydrogen conversation focuses on production, including various pathways and the tax credit, this series is intended to delve deeper into the industries and sectors that will be leveraging hydrogen to decarbonize their operations in the ...

In April 2021, GTI Energy launched a brand refresh to reflect our growing capabilities, expertise, and impact across energy system transitions. The name was updated from Gas Technology Institute to GTI Energy to more accurately represent the expansive reach of our work built on a legacy of natural gas research.

Le Green Tech Institute (GTI) est un institut relevant de l'Universit#233; Mohammed VI Polytechnique de Benguerir, cr#233;#233;e en partenariat avec le Green Energy Park (GEP), une plateforme internationale de recherche et de formation en #233;nergie ...

GTI Energy has more than two decades of experience creating platforms for collaboration to help customers de-risk experimentation with technologies or operational practices and learn from others. We convene partners with deep knowledge and experience to engineer disruptive innovations and then find the solutions they need to deploy and scale ...

GTI Energy Renews Terms for Directors and Officers (11/18/2022) GTI Energy Once Again Recognized as One of 2022's Most Engaging Workplaces (11/08/2022) GTI Energy Names Sumeet Singh of PG& E as a New Board Member (05/05/2022) GTI Energy's President and CEO David Carroll Announces Retirement, Dr. Paula Gant to Assume Leadership Role ...

Team Discount. Register for online courses with a company colleague (or two or more), and save 10%. Contact us before you make the purchase to receive a coupon code to take advantage of this discount. (The 10% discount applies only to two or more students taking the same class/course and does not apply to two students taking separate courses/classes).

GTI Energy's 3D modeling solutions provide unprecedented accuracy and detail, allowing utilities to visualize

and interact with high-fidelity digital replicas of real gas utility assets. These precise models enable utilities to optimize asset management, improve maintenance planning, and enhance training programs, ultimately reducing costs ...

Le Green Tech Institute (GTI) de l'Université Mohammed VI Polytechniques, crée en partenariat avec le Green Energy Park (GEP), vise à former les futurs cadres techniques dans différentes industries industrielles couplant les énergies renouvelables, procédés verts et technologies avancées, notamment la digitalisation industrielle et l'industrie 4.0.

GTI Energy is an organization dedicated to advancing the economy-wide transformation needed to deeply decarbonize energy systems while supplying the energy needed to support rising standards of living and economic growth worldwide. GTI Energy embraces a vision for integrated, low-carbon, low-cost energy systems that leverage gases, liquids ...

Welcome to the GTI Energy Tech Talk Webinar Series. The energy industry is in the midst of significant transformations. Technological innovation has produced an unprecedented abundance of affordable and clean energy supplies, with natural gas, efficiency, and renewable resources each playing essential roles in this dramatic transition.

The leader in the development and deployment of technology solutions, GTI Energy provides services at every phase of the technology development cycle. We work as a valued partner for organizations seeking knowledgeable planning, development, testing, management, and training support - from concept to commercialization. ...

GTI's Emerging Technology Program (ETP) is a North American, membership-based utility collaborative. ETP works to accelerate the commercialization and adoption of energy efficient technologies. ETP works across numerous channels to deliver a pipeline of solutions, enabling utilities to meet energy efficiency goals with less risk and more certainty.

You can search the GTI Energy information database for all documents and software produced by GTI Energy since 1991. You can search by keyword or topic. Or, If you know the GTI Energy Document Number that corresponds to the resource you're searching for, enter the Document Number into the search field. The format should be GRI-two digit year ...

Le Green Tech Institute (GTI) de l'Université Mohammed VI Polytechniques, crée en partenariat avec le Green Energy Park (GEP), vise à former les futurs cadres techniques dans différentes industries industrielles couplant les énergies ...
