How will the ECOWAS regional Access Project Impact Guinea-Bissau?

The ECOWAS regional access project will extend and strengthen the distribution network in Guinea-Bissau, supplying electricity to an additional 198,000 people (33,000 households) by 2022. A low-hanging fruit opportunity exists to bring electricity to an additional 31,443 households.

How many PPAS has EAGB signed with IPPs in Guinea Bissau?

In Guinea Bissau, the power purchaser EAGB has signed two PPAs so far: the first with the Karpowership company for a 30 MW HFO power barge, and the second with Electricit&#233; de Guin&#233;e (EDG), the national public electric utility of Guinea, for importing power through the OMVG transmission line by 2022.

How will hybrid mini-grids impact the Bijagos Islands?

Hybrid mini-grids in the Bijagos islands (Bolama, Rubane and Bubaque) will increase access to electricity among the local population and improve the quality and reduce cost of electricity supply in these islands. This will contribute to unleashing the islands' tourist potential.

Wholesale Off-Grid Inverters PV System? An off-grid solar system, also known as off-the-grid or standalone, is a photovoltaic system that has no access to the utility grid. For this reason, off-grid solar systems involve both solar panels and battery storage, so the power can be coming to the building from either of these two sources at any given time -- depending on the solar situation ...
