

Hazardous material storage containers Montserrat

Do you offer hazmat chemical storage?

FW Logistics offers hazmat chemical storage for a broad spectrum of toxic and extremely hazardous materials. For this service, we provide an up-to-date fulfillment center designed to accommodate container handling, pick and pack fulfillment, and procedures for fulfillment returns.

What are inesta hazardous material containers?

INETA hazardous material containers are highly suited for outdoor storage of non-flammable and highly flammable materials. Companies that store and handle potentially hazardous/dangerous goods must have special containers to store such material.

How safe is hazmat warehousing?

Our network of storage providers supplies certified HazMat warehousing for a variety of toxic and potentially dangerous materials. Different materials require different safety measures and storage environments to keep them safe and maintain their efficacy.

Can a dangerous goods container withstand harsh outdoor weather conditions?

Our dangerous goods containers can withstand harsh outdoor weather conditions for when internal storage is not an option. Royal Wolf's Class 3 Hazardous Goods and Liquids Storage containers are the ideal storage units for chemical drums, paint, thinners, oils, diesel, chemicals, class 3 flammables and any other potentially dangerous substance.

Are class 3 hazardous and hazardous chemical storage containers compliant?

Class 3 Dangerous and hazardous chemical storage containers are available for hire or sale in three convenient sizes - 8ft (2.3m), 10ft Pallet Wide (3m) and 20ft (6m) and are fully compliant with legislation AS1940-2017. (*Certificates of compliance can be supplied upon request.)

Do hazardous materials need extra safety precautions?

Hazardous materials require extra safety precautions for both the storage site and active employees. Different materials demand distinct safety measures and storage environments to ensure their safety and maintain efficacy.

The point in having fire-resistant containers for your hazardous storage rentals is so the fire cannot spread to nearby buildings. A structure rated at two hours of fire resistance, for example, should be placed between 10 and 30 feet from an existing structure, while a four-hour fire-resistant structure can be placed within 10 feet, or even ...
