

How many kilowatts does Picea generate?

Picea generates eight kilowattsof single-phase electricity which it feeds into the domestic grid. Up to 20 kilowatts can be made available for a short period. This system does not have to be connected to the grid,it can self-sufficiently power a home. The required battery storage is already integrated.

Does HPS offer a warranty on a Picea 2?

HPS takes care of the installation and offers long-term maintenance contracts. The picea 2 warranty explicitly includes all included parts such as battery,electrolyser and fuel cell. The 5-year warranty is optionally extendable to 10 years. We always keep the software of your picea up to date.

Is Picea CO2 free?

CO?-free,without exhaust fumes,noise or harming animals. With picea,we at HPS have developed a globally unique solution that stores this solar power in the form of hydrogen and can release it on demand 365 days a year. We are HPS and we want to make history.

What is included in the Picea 2 warranty?

The picea 2 warranty explicitly includes all included parts such as battery,electrolyser and fuel cell. The 5-year warranty is optionally extendable to 10 years. We always keep the software of your picea up to date. Whenever a replacement becomes necessary,we also install the latest hardware for your picea.

Do you need more electricity with Picea?

No matter whether you heat with electricity,oil,gas or wood: with picea you need less of it. With the second generation of our year-round electricity storage system,we were able to increase the original utilization rate of 90 %.

Does Picea use natural gas?

Picea can generate both electricity and air heating. But unlike others (Viessmann,SolidPower) HPS do not take the extra step of using natural gas. The PEM fuel cell system runs on hydrogen. The gas is produced in the summer by electrolysis when excess solar power is available.
