

North Korea is heavily reliant on trade with China, its largest trade partner. However, North Korea ranks relatively low as a source of imports to China. This is due to international sanctions against North Korea, which have decreased overall official volume of trade. Even so, North Korea remains dependent on trade and aid from China.

What Are The Biggest Industries In South Korea? Seoul, South Korea. South Korea is an independent state found in Eastern Asia and forms part of the larger Korean Peninsula. North Korea is the only country it shares its borders with. The country's capital city is Seoul, which is among the major global cities, which is home to about half of the country's ...
