

How much does a solar system cost in Indonesia?

According to Indonesian regulations, grid-connected users must install a solar system with a kilowatt-peak (kWp) capacity that does not exceed their existing PLN capacity. For new panels, expect a cost ranging from approximately IDR 10 million to IDR 20 million per installed kilowatt peak (kWp) for a standard rooftop solar system in Jakarta.

How much does a rooftop solar system cost in Jakarta?

For new panels, expect a cost ranging from approximately IDR 10 million to IDR 20 million per installed kilowatt peak (kWp) for a standard rooftop solar system in Jakarta. The pricing varies based on factors like the panel manufacturer and performance quality.

What are the best solar panels for landed homes in Indonesia?

The most popular solar panel brands in Indonesia are typically the more affordable top Chinese manufactured panels in the list such as LONGi, Jinko, Trina, JA Solar, etc. Here's a rough estimate of the standard system cost for landed homes in Indonesia. Remember that installation costs will also vary depending on the above factors.

Which solar panels should I buy in Indonesia?

Most solar installers in Indonesia usually recommend panels made by "Tier 1" solar panel manufacturers. The Bloomberg New Energy Finance uses this tiering system as a measure of a manufacturer's reliability and consistency. The prices of "Tier 1" solar panels vary based on where they are manufactured, their efficiency and warranty durations.

Can solar panels be installed on a roof in Indonesia?

Solar panels can be installed on almost all roofs. That said, your roof's material and type determine if additional materials for installation (such as racking and mounting systems) are needed -- which will add to your installation cost. In Indonesia, most roofs are pitched and tiled, though a small proportion use metal sheet or flat concrete.

How to rent solar panels in Indonesia?

b) SUN Rental A rental financing scheme based on the performance of solar panels, based on hourly calculations without down payment (DP) or upfront installation costs. You can make monthly payments for 15-25 years. As an illustration, the average time the sun shines optimally in Indonesia is 4 hours.
