

Inventus Power's PROTRXion batteries are designed to handle the uniquely tough conditions that cleaning equipment operates in every day and overcomes issues such as opportunity charging, poor maintenance, and harsh conditions. Ready to implement a new power solution for your cleaning equipment? Contact Inventus Power today.

Inventus Power, formerly ICCNexergy + Palladium Energy, is the world's ONLY power systems manufacturer that integrates and delivers battery packs, chargers & docking stations and power supplies across the consumer, commercial, medical and military & government markets and is located in 9 countries across 4 continents. With headquarters

There are several reasons why Inventus Power is the preferred partner of the world's leading Original Equipment Manufacturers (OEMs) of High-End Consumer Devices. ~60 years of industry experience designing & manufacturing battery packs, chargers and powers supplies for ...

Inventus Power is excited to announce that we will be working with Qatar Environment & Energy Research Institute (QEERI) in support of efforts to provide state-of-the-art solar-powered energy storage systems (ESS) for the Middle East, Africa, and Southeast Asia regions.. QEERI, part of Hamad Bin Khalifa University (KBKU), is a national research institute tasked with supporting ...

Inventus Power has worked hard to build a reputation for being highly effective not only in battery development, but also in our ability to work closely with our customers as an extension of their engineering teams; in a true collaboration, our advanced battery systems become an integral part of their product evolution and success. ...

Inventus Power is a global leader in advanced battery systems with a long-standing history of designing safe, innovative and reliable power solutions for mission-critical applications. From our line of military-standard batteries and chargers to customized power solutions, our products are designed to withstand the most austere environments and ...

The United States Department of Defense announced its Contracts for May 12, 2021 which included an award to Inventus Power to supply Conformal Wearable Batteries to the U.S. Army under a nine-year, \$1.25 billion contract.. Inventus Power, the inventor and current producer of warfighter wearable power, has been working closely with the U.S. Army for over a decade.

Inventus Power creates and delivers innovative designs for internal, external, single- and multi-bay chargers and docking stations. We apply nearly 60 years of engineering expertise to meet demanding requirements for a broad range of portable, motive & stationary applications. Every solution is designed with an exceptional

understanding of the ...

Inventus Power engineers and manufactures custom and standard battery packs for a broad range of portable, motive & stationary applications. With 60 years of battery industry experience, we have worked with multiple cell chemistries (i.e. Lithium based, NiMH, NiCd, Sealed Lead Acid). Over the last 30 years, our focus has been on Lithium-ion (Li ...

There are several reasons why Inventus Power is the preferred partner of the world's leading Original Equipment Manufacturers (OEMs) of Critical Power and Backup Solutions. ~60 years industry experience designing & manufacturing battery packs, chargers and power supplies across a broad range of markets;

Inventus Power has started to convert a new generation of customers who manufacturer material handling equipment, automated guided vehicles, aerial work platforms, etc. who are replacing their Lead Acid battery systems with Li-ion or electrifying their products completely over from internal combustion engines (ICE). Some of these industrial ...

Inventus Power is the global leader in advanced battery systems. We specialize in the design and manufacture of Li-ion battery packs, smart chargers and efficient power supplies across a broad range of portable, motive and stationary applications. Founded in 1960, we have six decades of experience designing integrated power systems for global OEMs.

In honor of our 60th anniversary, we're reaching out to our staff to help tell our story. In this interview with Inventus Power's Sam Kang (VP of Asia Supply Chain, Sourcing, IT & QX Operations) and Jason Jiang (Director, Sales & Business Development - China), we'll discuss the expanding capabilities of our Qingxi, China plant, from production automation to in-house ...

Helping contribute to a more sustainable future. At Inventus Power, our mission is to lead the global transformation towards a sustainable future with our advanced battery technology and highly engineered solutions - ultimately fostering a world where battery technology improves sustainability and enhances the quality of life for existing and future generations.

Inventus Power is a global leader in advanced battery systems with 60 years" experience as a supplier to the healthcare industry. We specialize in the design and manufacture of Li-ion battery packs, smart chargers and reliable power supplies for a broad range of portable, motive and stationary medical applications.

Inventus Power's PROTRXion Li-ion batteries are designed to address various market electrification needs not being met through power sources such as combustion engines, lead-acid batteries, and other conventional technologies. With initial models launched in 2020 to target key markets such as material handling, aerial work platform ...
