In December of 2023, Our Village of Hope came together for a remarkable event that forever changed the perception of the power of giving and caring. What began as our normal feeding program for prisoners evolved into an awe-inspiring experience, showcasing the profound impact of generosity and compassion...

"Now to him who is able to do far more abundantly than all that we ask or think, according to the power at work within us." (Ephesians 3:20) During the month of September, our base has, once again, lived in and experienced the mercy and grace of the Lord. The prayer room in the favela Complexo d...

We came to Mozambique, one of the world's poorest countries, to prove the Gospel, both in our own hearts and lives and among the neediest people we could find. And the Gospel has taken root all around us. ... launching the ministry of Iris into more revival in power than we could have imagined. Once more we are here to overcome the world with ...

In August 2024 I joined Iris Krakow again for the annual European camp. This week has fast become one of the "musts" of my year. From the humble beginnings during the onset of Covid when we had no idea that war was coming to Ukraine, circa 6 months later cementing Poland as a strategic outreach hub, the camp has grown to become a truly global ...

The Iris Power Total Flux Probe (TFProbe) is a non-metallic sensor that detects the magnetic field emanated from each rotor pole in generators and synchronous motors to determine the presence and severity of failure mechanisms including out of round rotor, off center rotor, thermal imbalance of rotor poles, loose poles, stator Migration or shorted rotor turns.
