

Can Jamaicans invest in solar energy equipment?

According to Roger Chang, President of the Jamaica Solar Energy Association, more Jamaicans can invest in solar energy equipment for their commercial and residential use with the availability of financing institutions.

Is it worth getting a solar power system in Jamaica?

This calculation will show you how many hours of sunshine your photovoltaic system will get in one year. If the resulting value is below 6,000, it is not worth getting a solar power system for your home. 2. Find which Jamaican solar company is more affordable but still does quality installations

How to find a solar company in Jamaica?

Go on google and search for solar companies in Jamaica, make a list of them and call them. Contact at least five different companies to get prices for their services. An important tip is to never mention that you are looking for the best price. Always act interested in buying their products but don't be too pushy about buying right away.

What is the biggest solar project in Jamaica?

Paradise Park, a US\$65-million investment, is the largest solar project in Jamaica, which is projected to significantly decrease the country's dependence on fossil fuels, while helping the island to reach its sustainable development targets. The solar farm is designed to supply 37 megawatts of power.

Jamaica's energy grid is now dominated by liquefied natural gas and oil. The prices of those fossils have spiked since the onset of the pandemic. ... BMR Jamaica Wind, 36 MW; Content Solar, 28 MW; and Eight Rivers Energy Company, 37 MW of solar power. JPS serves roughly 680,000 residential, commercial and industrial customers. The company ...

Off grid photovoltaic systems are completely independent of the grid. The energy produced by the solar panels are collected and stored in special batteries that are rechargeable. A device called a charge controller regulates the raw DC power to prevent overcharging and protect the batteries. Batteries store energy in the form of Direct Current, therefore another device called an inverter ...

Wednesday 8:30am - 5:15pm. ... engineering, renewable energy systems, and services, and we develop the value of wind, solar and hydro energy in Jamaica and the wider Caribbean. Our team possesses the right mix of knowledge, skills, and ...

Normally, solar plants sign long-term contracts (15-plus years) to sell power to the grid for a set rate. This is how banks get comfortable with lending money to a new project that is not up and running yet. So I would recommend signing a contract with the Jamaica Public Service that is possibly guaranteed by the Government of Jamaica.
