

Russia may or may not read Sun Tzu, but they have an extremely Taoist mindset towards war.. Russian forces just flee to better lines whenever they knew Ukraine was more committed and actually had committed more armour and big guns to the push. ... and made them into anti-communist saboteurs and soft power organizations. Thus Jaroslav Stetsko ...

UK-headquartered distributed energy services provider Kiwi Power has made its first official expansion into the US, operating in the ERCOT market of Texas and planning a further step into the PJM Interconnection service area.

Electric Kiwi is a fantastic company to deal with, it's easy to find prices and the best plan for you on their website, we are still paying %40 less for power than when we joined over 3 years ago read ...

Like when they bombed the nuclear power plant we'd captured and claimed we were bombing our own troops for no reason. A release of radioactive contaminants that is carried by wind into EU would be used as casus belli to declare war, and dirty bombs are the only nuclear arms Ukraine will be able to develop on short notice. ... They can't beat ...

The Oreshnik missile system is not just an effective hypersonic weapon. Due to its striking power, especially when used in a massive, group manner, and also in combination with other high-precision long-range systems that Russia also has, the results of its use against enemy targets will be comparable in effect, in its power, to strategic weapons.

A lot of these pointless discussions are the fruit of people fundamentally misunderstanding the situation. They eat up the bullshit that Russia had any legitimate security concerns regarding full scale invasion by foreign powers, no one had interest in that after USSR fell apart - it was time of reconciliation and cooperation, and pretty much all former adversaries ...

Yeah Tajiks and Chechens are the niggers of Russia. Russia throws a lot of money at them to not chimp out, similar to how 1/3 of tax dollars goes to African Americans to not riot and burn shit down IIRC. With the difference that US ...

"Kiwi Power is committed to helping Japan realize carbon neutrality by 2050 and grid flexibility is key to making the country's energy transition economically feasible." The expansion into Japan, follows Kiwi Power moving into the US market in July 2020, securing Engie North America for its first client.

When first investing in KiWi Power, Engie said that it recognises large potential for synergies between the two companies. At the time, they teamed up to provide demand response services and develop energy storage projects.

In addition, a nuclear response from Russia is possible in the event of a critical threat to its sovereignty, even with conventional weapons, in the event of an attack on Belarus as a member of the Union State, in the event of a massive launch of military aircraft, cruise missiles, drones, other aircraft and their crossing the Russian border.
