It is currently Africa's only manufacturer of single-axis solar-panel tracking frames that orient the panels towards the sun. These innovative structures can boost the power output of solar arrays by up to 20%, and 1PWR is pioneering their use in a portfolio of mini-grids in the Lesotho highland.

Ideally tilt fixed solar panels 27° North in Maseru, Lesotho. To maximize your solar PV system's energy output in Maseru, Lesotho (Lat/Long -29.3171, 27.4814) throughout the year, you should tilt your panels at an angle of 27° North for fixed panel installations.

Solar PV mini-grid technology is a suitable option for rural electrification in Lesotho due to the country's abundant solar energy resources. Lesotho relies heavily on biomass and imported fossil fuels for energy. Switching to solar ...

Whether it is derived from a specialist kiosk or a portable panel at home, solar power has changed many lives for the better in Lesotho. Matholang Jane's family relies on it. Her yard in Mashai bears a blue portable solar panel ...

The move coincided with OnePower's successful bid to develop the first utility-scale solar project in Lesotho, a 20-megawatt project that will sell electricity to Lesotho's central grid in addition to OnePower's minigrid work. OnePower expects that project, named Neo 1, to start delivering power to Lesotho's central electric grid next year.

Corporate Social Responsibility Frazer Solar incorporates CSR activities across all aspects of its operations and Lesotho was no exception. First and foremost was the inclusion in the project of an initiative to eliminate the use of dirty, dangerous, dim and expensive paraffin and candles as the main source of lighting for the entire country, some 350,000 homes.
