

What does the renewables readiness assessment mean for Bosnia & Herzegovina?

"The Renewables Readiness Assessment represents an important step in the process of gradual transition from fossil fuels to renewable energy sources on the way to the decarbonisation of Bosnia and Herzegovina's energy sector by 2050, for which we are grateful to IRENA.

Can solar power plants improve biodiversity in Bosnia and Herzegovina?

Future development of HPPs and the construction of new dams in Bosnia and Herzegovina should consider Strategic Environmental Assessments and effects on rivers' biodiversity. Solar energy has a great perspective for the implementation of solar power plants that counts for 70.5 &#215; 10<sup>6</sup> GWh of irradiated energy per year.

What is the potential for bioenergy in Bosnia & Herzegovina?

Concerning bioenergy, the greatest potential lies in wood residues, since forests are one of the main natural resources of Bosnia and Herzegovina. There are currently two biogas power plants, but there is no available data about biofuel and other biowaste utilization.

Does Bosnia and Herzegovina have a potential for geothermal energy?

Immense potential also lies in Bosnia and Herzegovina's geothermal energy, however without significant interest of authorities in the development due to initial investments in geothermal heating, which are significantly higher compared to other conventional heating systems.

Is Bosnia and Herzegovina a good country for solar energy?

With around 60% of the land area, Bosnia and Herzegovina could have between 1.2 and 1.4 MWh/kWp of photovoltaic capacity compared to the world's solar potential. Compared to B&H and other Balkan countries, Serbia has a great potential for the implementation of solar energy.

How many hydropower plants are there in Bosnia and Herzegovina?

There are 390 planned hydropower plants and 35 are under construction. It is evaluated that hydropower plants could provide 9,000 GWh of maximum generated energy. Future development of HPPs and the construction of new dams in Bosnia and Herzegovina should consider Strategic Environmental Assessments and effects on rivers' biodiversity.

Region: Bulgaria and Italy strengthen energy cooperation with focus on renewables, hydrogen and market integration; Serbia's energy strategy: Transitioning to renewables and reducing fossil fuel dependence by 2040 ... Bosnia and Herzegovina: China's EXIM Bank to fund EUR74.8 million loan for Bistrica river hydropower project. November 4, 2024.

The new Renewables Law adopted in Republika Srpska in February 2022 partially transposed the REDII, while in the Federation a similar law was drafted. Energy ... Bosnia and Herzegovina has not yet started with the transposition of Regulation (EU) 2017/1938. Only rudimentary provisions

The European Bank for Reconstruction and Development (EBRD) will lend EUR 25.1 million (USD 27.7m) in debt financing to back the development and construction of a 50-MWp solar farm complex in Bosnia and Herzegovina.

This Renewables Readiness Assessment (RRA), developed by the International Renewable Energy Agency (IRENA) in close cooperation with the Ministry of Foreign Trade and Economic Relations (MoFTER), aims to support Bosnia ...

05 November 2024 - Electricity export revenue in Bosnia and Herzegovina came in at EUR 240 million in the first three quarters. Renewables. ... 13 September 2024 - Alfi Renewables, Aspiravi International and Zero Emissions AG have agreed the main terms of cooperation on a 125 MW wind farm project.

Slovenian fund manager Alternative Financial Investments (ALFI) has revealed that its subsidiary, ALFI Renewables, will partner with Belgian company Aspiravi International and Swiss firm Zero Emissions on a significant wind energy project in Bosnia and Herzegovina.. The joint venture will develop a 125 MW wind farm near the town of Livno. The project, which is ...

Bosnia and Herzegovina Renewables Readiness Assessment. Renewables Readiness Assessment Key instrument in IRENA's country-level engagement Country-initiated, country-led and country-owned process facilitated by IRENA Inclusive and multi-stakeholder process promoting consensus

The Renewables Readiness Assessment: Bosnia and Herzegovina finds that integrated short- and long-term strategies that aim to increase the share of diverse renewables will not only lead BiH to address ...

Bosnia And Herzegovina Renewable in % Electricity Production. Under its draft NECP (2023), Bosnia and Herzegovina aims to reach a share of 43.6% of renewables in final energy consumption by 2030 (up from 36.6% in 2021), including 70% for electricity, 61% for heating and cooling, and 8.4% for transport (46%, 53%, and 0.2%, respectively, in 2021).

2 Scaling-up Solar PV in Bosnia and Herzegovina October 020 BOSNIA AND HERZEGOVINA COUNTRY PROFILE -- KEY COUNTRY DATA Population 3,286 million (est. 2020) 1 GDP per capita (2018) 6,065 USD per capita (2018) 2 Electricity consumption per capita (2018) 4,045 MWh/year 3 Solar resource quality (insolation) 1,100 - 1,500 kWh/m<sup>2</sup>/year Range of current ...

In early 2020, the Government of the Federation of Bosnia and Herzegovina (FBiH) gave consent to issue an energy permit for the 42.9 MW Orlova? wind farm in the Livno area, which was set to include 13 wind turbines. At the same time, the nearby Ivovik project also received approval.

Bosnia and Herzegovina has a power score of 1.82, which puts it at rank 63 in the Emerging Markets power ranking. In comparison to 2023, Bosnia and Herzegovina has dropped in the power rankings by 2 places, from rank 61, to rank 63. ... Renewable energy auction, Net metering, Priority grid access, Renewables mandate, and Renewable Energy ...

Feature / The BiH SuTra programme brought together key stakeholders to explore how Bosnia and Herzegovina can effectively navigate its sustainable transition. 4 October 2024 / About Climate policy, Fossil fuels, Mitigation, Renewables and Sustainable lifestyles

As one of Bosnia and Herzegovina's (BiH) most important export sectors, the energy sector has the potential to be a major engine for economic growth in BiH. The sector is also relevant for the country's accession to the EU, as development of competitive energy markets is required by the EU and the Energy Community Treaty. ...

o Some missing parts of the legal framework for renewables have been completed. The adoption of a set of energy laws in the Federation of Bosnia and Herzegovina (FBiH) streamlines administrative procedures for the construction and operation of renewable energy facilities and reforms the incentives system for renewable energy.
