

Wyspa Bouveta odkryta 1 stycznia 1739 przez francuskiego żeglarza i odkrywcę Jean-Baptiste Charles Bouvet de Lozier, który dowodził francuskimi statkami Aigle i Marie. Jednak po odkryciu wyspy nie została dokładnie ustalona, ponieważ Bouvet nie opisał wyspy i pozostało niejasnym, czy była to na pewno wyspa, czy część kontynentu.

Our Expedition Highlights Prepare for the Journey Get ready to embark on an incredible journey to Bouvet Island, one of the most remote and uninhabited islands in the world. Our experienced team will guide you through the necessary preparations, ensuring you have everything you need for a successful and unforgettable expedition. Explore the Island Discover...

Center wavelength: 1545-1555nm (other wavelengths available) Average output power: >1W Output peak power: >1KW Pulsewidth: <5ns Repetition rate: single-shot to 1MHz Spectral bandwidth (at FWHM) <10MHz Diffraction-limited output beam

If you want to get away to get away from it all, forget the Caribbean, the South Pacific, or even the South Pole. We've got a place that beats them all: Bouvet Island, a small outcropping of rock and ice in the Southern Ocean. The nearest land is more than a thousand miles away, making Bouvet the most remote island on the planet. A French sailor named ...

TTM has off-the-shelf and custom components and manufacturing solutions for leading-edge commercial applications. TTM has broad experience ranging from automotive Advanced Driver Assistance Systems ("ADAS") that rely on long- and short-range radar, as well as LiDAR to provide 360-degree views of a vehicle to mm-Wave applications for 5G connectivity and ...

Designed with high-power, compact commercial wireless equipment systems in mind, TTM's Xinger-brand resistive components leverage unique product design and manufacturing techniques to achieve unmatched pricing advantages in high-volume applications.
