

What is Liebert® NXC?

Liebert® NXC offers reliable and flexible secure power in a fully integrated package solution. Its highly efficient transformer-free double conversion technology delivers installation and running cost savings. The Liebert® NXC range has been designed to optimize specific rating requirements, thus enhancing flexibility and installation space needs.

What is Liebert nxctm?

It comes complete with highly efficient transformer-free double conversion technology allowing it to provide installation and operating cost savings. With a rated output power factor of 0.9, the Liebert® NXCTM is also able to provide 11% more active power than a traditional 10-40 kVA UPS.

Why should you choose Liebert® nxctm?

Liebert® NXCTM's combination of performance features, impressive integrated autonomy and compact footprint make it ideal for guaranteeing clean, continuous power for a wide range of applications from IT, medical facilities and laboratories, of » ce facilities, and retail brands.

factor of 0.9, the Liebert® NXC(TM) is also able to provide 11% more active power than a traditional 10-40 kVA UPS. Liebert® NXC(TM)'s combination of performance Liebert® NXC(TM) 10-40 kVA Features and Performances 0.9 output power factor Double conversion ef» ciency over 94% Integrated battery compartment capable of up to 60 mins. of

Liebert NXC 10kVA - 60kVA. Liebert NXC offer reliable and flexible secure power in a fully integrated package solution. It comes complete with highly efficient transformer-free double conversion technology providing installation and ...

Liebert® NXC(TM) offers reliable and flexible secure power in a fully integrated package solution. It comes complete with highly efficient transformer-free double conversion technology allowing it to provide installation and operating cost savings. Liebert NXC is a compact solution designed to optimize installation space requirements and provide enhanced flexibility to ensure superior ...

The Liebert® NXC 80 - 200 kVA range offers reliable secure power in a fully integrated package solution. Its combination of performance features, multiple internal battery configurations and three phase/single phase output flexibility, make it an ideal choice for a wide range of applications from IT and manufacturing to retail and transport.

Moshhnost` 80-200 kVA Linejka Liebert® NXC moshhnost`yu 80-200 kVA predlagaet nadezhnoe bezopasnoe pitanie v polnost`yu integrirovannom kompleksnom reshenii.

La gamme Liebert NXC 10 - 40 kVA offre une alimentation sécurisée, fiable et flexible en une seule solution entièrement intégrée. Elle bénéficie d'une technologie de double conversion sans transformateur à haut rendement qui permet de réaliser des économies d'installation et de fonctionnement. Liebert NXC atteint un rendement de 95 % en mode double conversion et ...

Liebert NXC is also able to provide greater active power than a traditionally rated 0.9 power factor UPS. Liebert NXC achieves up to 96% efficiency in double conversion mode and up to 99% in ECO mode, thus ensuring effective load protection, while reducing the total cost of ownership (TCO) and environmental impact. Liebert NXC's combination of

Liebert NXC 10kVA - 60kVA. Liebert NXC offer reliable and flexible secure power in a fully integrated package solution. It comes complete with highly efficient transformer-free double conversion technology providing installation and running cost savings.

The architecture of the Liebert NXC(TM) is designed to optimise installation and simplify service with its easily removable power assembly. This architecture considerably minimises the time needed for repairs and optimises serviceability. Liebert NXC(TM) also comes equipped with casters to facilitate ease of movement and relocation.
