What is a renogy 200 watt solar panel?

This Renogy 200 Watt Solar Panel features an extended lifespan for outdoor use and high resistance against the wind (2400Pa) and snow (5400Pa). Each panel can provide 1000 Wh per day (depending on sun availability), compatible with on and off-grid systems. Reliable performance and durable construction bring possibilities of wild adventures.

How much power does a 200 watt solar panel produce?

A 200-watt solar panel typically produces between 600 and 1,200 watt-hours (Wh) of solar energy per day. A 200 W panel provides enough power to keep a small DC fridge running all day, plus charge a few small electronic devices, like laptops and smartphones.

Are 200 watt solar panels a good choice?

200-watt solar panels are a great way to take solar power with you. They're not too big to take with you on a journey, but they're powerful enough to make a good amount of energy on a sunny day. They are the perfect companion to an RV or boat to provide a bit of energy for your electronics.

Can a 200 W solar panel power a house?

200 W solar panels are best used to charge portable batteries. They aren't ideal for powering a house because they produce far too little energy in a day. 200 W panels are best suited for off-grid use but still face the same problem as all solar panels. If the sun isn't shining, they can't provide power.
