

How does Montenegro utilize its hydro power?

Montenegro currently uses only approximately 20 percent of its hydro power potential. To fully develop this sector, Montenegro needs to upgrade its transmission and distribution network. The most important development project in the transmission system was the construction of an underwater electricity cable to transport the power to and from Italy. Montenegro will need to continue investing in its hydro power infrastructure to increase its usage and export capabilities.

Does Montenegro have a gas distribution network?

Montenegro currently does not have a gas distribution network. The Minister of Economy announced the government's intention to begin importing U.S. liquefied natural gas (LNG) via the Port of Bar in March 2020.

Can Montenegro produce oil and gas?

Montenegro does not have the necessary technology or experience to produce oil or gas. Additionally, successful energy exploration must consider the environmental impact of operations, as coastal tourism is a significant contributor to the country's revenues.

Will Podgorica build a solar power plant at Velje Brdo?

According to plans, Podgorica is building a solar power plant at Velje Brdo with an installed power capacity of at least 50 MW.
