Each Skill has an Energy cost, designated by the percentage in the blue circle on top of the Skill card. The percentage is based on the Maximum Energy of the character. If a Skill has a 1% Energy Cost, and a character has 100 Energy, it takes 10 Energy to use the Skill. If the character has only 9/100 Energy, they cannot use the Skill.

Green energy: Not only do heat pumps require little electricity to run, they draw heat from the air making their energy source completely renewable.. Energy efficient: For every 1kWh of electricity used, air source heat pumps produce ...
