

What is Morocco's Solar Plan?

This project is part of Morocco's energy strategy, which focuses on the development of renewable energy and sustainable development. The realization of the Moroccan Solar Plan is provided on five sites: Ouarzazate, Ain Bni Mathar, Fom Al Oued, Boujdour and Sebkhah Tah.

Who implements the Moroccan solar plan?

The implementation of the Moroccan Solar Plan is entrusted to the Moroccan Agency for Solar Energy (Moroccan Agency for Solar Energy). Launched in 2009, under the presidency of His Majesty King Mohammed VI, the Moroccan Solar Plan is a very ambitious project.

What is the Moroccan solar Plan (MSP)?

The Moroccan Solar Plan (MSP) scheme will allow Morocco to reduce dependency on energy imports and meet the growing domestic demand. The project will be located in 5 sites: Ouarzazate, Laayoune, Boujdour, Midelt and Tata.

What are Morocco's recent projects on solar energy?

Recent projects dedicated to solar energy include a loan from the Climate Investment Funds' Clean Technology Fund. This program, which is set to invest \$25 million, demonstrates Morocco's commitment to the Paris Agreement and its continued support in reducing greenhouse gases.

Will solar power improve living conditions in Morocco?

As solar energy in Morocco becomes more efficient, the living conditions of the average resident should improve as solar power makes electricity more affordable and easier to access. The solar farms popping up across the country also create jobs for the population to earn a living wage.

Why should Morocco invest in solar energy?

Prior to this renewable attitude, 97% of Morocco's energy was produced by fossil fuels. The construction of solar farms is able to offset the nation's energy usage, lessening the demand for energy imports and creating opportunities for more exports, ensuring a self-sufficient nation.
