

What is MTU Maintenance Serbia?

MTU Maintenance Serbia is a state-of-the-art engine parts repair shop. It plans to employ 400-500 people by 2027 and will have a capacity of some 470,000 repair hours per year. In the future, MTU Maintenance Serbia will use special repair techniques to repair individual parts of commercial engines.

Does MTU Aero Engines have a repair facility in Serbia?

MTU Aero Engines is expanding its worldwide commercial maintenance network and setting up a new repair facility in Serbia.

How many employees does MTU Maintenance have?

MTU Maintenance has over 11,000 employees. In Nova Pazova, not far from Belgrade's international airport, MTU is now adding another state-of-the-art engine parts repair shop to its maintenance network: MTU Maintenance Serbia.

What's new at MTU Belgrade?

The MTU office in Belgrade is now up and running, and the project team has defined the plant and process technologies. This means it will be possible to place early orders for particularly complex machinery with long delivery times.

What can MTU do for You?

At the state-of-the-art facility, experts conduct repairs on fan blades, cases, low-pressure compressor (LPC) airfoils and static parts, as well as composite repairs and painting. In the coming years, MTU will expand the workforce of the Serbian site to more than 400 engine experts and a capacity of 470,000 repair hours per year.

Where is MTU Aero Engines building a new repair facility?

Right now, the site where MTU Aero Engines will be building its new repair facility is still a green field. But the newly designated industrial park in Nova Pazova, Serbia is anything but tranquil, because starting in 2021, the 26-hectare site that MTU has acquired will be a hive of activity for construction vehicles, excavators and cranes.
