

Can I use myenergi battery Libbi If I don't have solar panels?

If you don't have solar panels, you can still benefit from MyEnergi battery Libbi. Charge it using cheaper overnight electricity tariffs and use the stored electricity during more expensive periods, saving you money. You can always add solar panels to your battery storage system later.

Does Libbi work with other myenergi devices?

libbi is designed to work in harmony with your other myenergi devices. Prioritise where stored electricity is diverted, to use in your home, to charge your EV, or heat your hot water. Whether you want to charge libbi from solar, the electricity grid, or a mixture of both, the choice is yours.

What is a myenergi Libbi datasheet?

The myenergi libbi datasheet provides detailed specifications about the home battery storage system. These specifications typically include key aspects such as power capacity, dimensions, weight, operational temperature range, efficiency rate, and more.

Where are myenergi Libbi batteries made?

The myenergi libbi batteries are made in the United Kingdom. The company is deeply rooted in its commitment to local manufacturing, believing that it not only ensures high-quality production standards but also significantly reduces the carbon footprint associated with shipping products from overseas.

Charge your car with grid, wind or solar energy. eddi. Divert self-generated power back into your home. eddi+. The 3-phase solar power diverter. libbi.
