

How many MW is a solar power plant in the Ivory Coast?

The authorities in the Ivory Coast have completed a 37.5 MW solar plant, with a second development phase now underway to increase its capacity to 80 MW. The first phase of a solar power plant in the northern part of the Ivory Coast has been inaugurated.

Where is Ivory Coast's first solar power plant located?

Ivory Coast's first solar power plant, located in the northern town of Boundiali, was commissioned in 2022. It currently has a capacity of 37.5 MW, but Coulibaly says this is set to expand to 80 MW, with financing for the expansion already approved by the Council of Ministers.

How many solar plants will Ivory Coast have by 2040?

Mamadou Sangafowa Coulibaly, the Ivory Coast's Minister of Mines, Oil and Energy, has announced plans to install 678 MW of solar capacity by 2030 and 1,686 MW by 2040. According to the government's website, there are plans for 12 new solar plants with a combined capacity of 628 MWp.

When will Ivory Coast's solar projects be commissioned?

Commissioning of these projects will take place in 2025 and 2026. Coulibaly said the Ivory Coast's installed solar capacity currently stands at 2,907 MW. The country is now working toward deployment targets of 3,500 MW in 2025, 5,200 MW by 2030 and 8,600 by 2040.

Who financed the Ivory Coast solar power station?

The 75.6-million-euro (\$82.1-million) cost of building the solar power station was financed by Ivory Coast, a German loan and a European Union grant. "This is the result of the EU's long-standing commitment to the renewable energy sector, with almost 140 million euros since 2017," EU ambassador to Ivory Coast Francesca Di Mauro told AFP.

How much does the Ivory Coast electricity project cost?

The project, which has a total cost of EUR75.6 million (\$81.8 million), is expected to power 70,000 homes, saving 60,000 tons of CO₂ equivalent per year. It is creating more than 300 direct and indirect jobs during construction. The project is part of efforts to diversify electricity production in the Ivory Coast.

Ivory Coast currently has 15 solar projects totaling 650 MW currently under study or development, all slated to commence operations between 2025 and 2027. In April this year, Ivory Coast announced the start of construction of the \$63.5 million Ferke solar power plant in Sokoro, which will have an installed capacity of 52 MW.

The government of Côte d'Ivoire has signed a concession agreement and 25-year Power Purchase Agreement (PPA) for a 50MW PV solar plant. The 50MW project will support Côte d'Ivoire's clean

energy ambitions by ...

The project is co-owned by Ministry of Petroleum, Energy and Renewable Energy Development, Ivory Coast and Societe des Energies de Cote d'Ivoire, with their respective ownership stake of 50% each. Touba Solar PV Park is a ground-mounted solar project. Development status The project construction is expected to commence from 2025.
